Bull Pleased With
the Attitude

Of Uncle Sam

As Outlined By Court's
Decision."If American Commerce is to
be World Wide," Says
the Spectator."America Must Become a World-
Power"—Hints at Uncle Sam
Conquering South American
States and Mexico.London, June 1.—The Spectator,
discussing the supreme court decision
in the insular cases, says: "The
decision is in accordance with common
sense, and all the facts of the
situation. If American commerce is
to be world-wide, America must be
a world-power."After alluding to "the grand check
on American expansion, or, if you like
it better, on American power," the
Spectator says: "The conquering of
feebler states was in the belief that
such states, whenever annexed, must
be included within the Union."The Spectator further says: "We
believe the fate of American depend-
encies will be good, but we can not
deny that the supreme court, in re-
moving the great danger attending
annexation, has made annexation
easier. If we were Spanish-Americans
we should feel a new sensation of
alarm. If, for any reason, in the fu-
ture near or distant, the statesmen
of the Union should desire to rule a
Spanish-American state, we do not
see what would prevent. Suppose
they buy or conquer Nicaragua and
so terminate all complications as to
the control of the canal by cutting it
through territory absolutely their
own, what except force, which would
hardly be applied, is to prevent them?
Or, suppose, which is quite possible,
that under a new and less wise pres-
ident than Porfirio Diaz, a furious quar-
rel arise with Mexico, what is to pre-
vent the union from annexing it en-
tire? Formerly they were constrained
by the dread of including so many col-
ored voters, and of anarchy arising
from so many new, half-civilized
states. But under the decision of
Monday they can hold Mexico as we
hold India."The Speaker and The Saturday
Review consider that the supreme court
has upheld imperialism.

PLUNGED

Down an Elevator Shaft to
an Instant Death.Jersey City Man Was Playing With
a Baby When Both Fell in the
Shaft and Were Killed.Jersey City, N. J., June 1.—Wm.
Gallagher, 25 years old, and Wm.
O'Keefe, 15 months old, were instantly
killed by falling from the fourth story
floor of a flat house at Barrow and
York streets shortly before noon to-
day. Gallagher has no children of
his own and was passionately fond of
playing with the O'Keefe baby. He
was tossing it up in the air and catch-
ing it just about noon today. When
near an elevator shaft which is four
feet square and close to the floor he
recoiled with the infant in his arms and
both plunged down the shaft to death.Accused of Kidnaping.
Benton Harbor, Mich., June 1.—
Chief of Police Johnson arrested Isador
Roth, charged with being the kid-
naper of Rosie Giest, the 16-year-old
daughter of Millionaire Giest of New
York city. Roth had been working in
a lumber yard here and was about to
leave the city.Strike at Newport News.
Newport News, June 1.—The 1,000
machinists employed at the plant of
the Newport News Shipbuilding and
Drydock company, by a practically
unanimous vote, decided to strike
Monday morning, their formal de-
mand for a 9-hour day with 10 hours
pay having been refused.Down in Alabama.
Montgomery, Ala., June 1.—Heavy
rain storms passed over this section
of Alabama, doing much damage to
growing crops. In some places four
inches of rain fell in three hours. At
Greenville, the roof of the court
house was blown off and other prop-
erty was damaged.

Mississippi Visited.

Vicksburg, Miss., June 1.—A wind
storm, almost cyclonic in proportions,
passed through the southwestern sec-
tion of Claiborne county, prostrating
trees, houses and everything else in
its path. So far only one fatality is
reported, the 5-year-old daughter of
Elijah Copeland, colored. Copeland's
house was smashed like an egg shell
and three of his children were caught
under falling timbers, the little girl
being instantly killed. The wind was
accompanied by heavy hail and the
damage to crops will be heavy.

Dayton Muddle.

Dayton, O., June 1.—Samuel Gom-
pers has gone to Washington, D. C.
Messrs. Kidd, Cattermull and others
have left town without settling the
labor troubles here. The state board
of arbitration is here, but it is thought
the shops will be run as "open shops"
or not at all. It is certain that the
cash register company will not take
back the four molders discharged,
and will have an "open factory" in
the future. A lockout has formally
been declared by the company.

SOLDIERS

Avenged the Treatment That
a Comrade Received.Proprietress of a Joint Would Have
Been Hanged But for Interfer-
ence of Cavalry.San Francisco, June 1.—Because a
soldier of the Forty-sixth volunteers,
who was mustered out yesterday was
found unconscious from "Knock out
drops," a mob of six hundred soldiers
last night wrecked a saloon on the
outskirts of Presidio. They were stop-
ping from burning the place and lyn-
ching the proprietress, Mrs. Morgan,
only after a pitched battle with the
cavalry, police and fire department.

The Weather.

Washington, June 1.—For Ohio
unsettled weather with occasional
rains tonight and probably Sunday.

FRENCH

Opinion Suggests Warm
AttackOn the Opinion of the U. S.
Supreme Court.The Decision as to Porto Rico Con-
jures Grave Comment From the
Press Which Represents
European Republic.Paris, June 1.—The Temps, in dis-
cussing the decision of the United
States supreme court in the insular
cases, says: "If rumors are true, the
judges have not succeeded in main-
taining themselves pure nor true to
austere principles, but have become
accessible to the arguments and sophis-
tisms of politicians. Their decision is
an act of the highest gravity and tan-
tamount to a triumph for the McKin-
ley school of manifest destiny, for the
jingoism, spread-eagles and the par-
tisans of a permanent army. On the
other hand, citizens favoring progress
and economic reforms, who are faith-
ful to the ideas of Washington, Jef-
ferson and Lincoln, are filled with an-
xiety and sadness."

Cubans Surprised.

Havana, June 1.—The decision of
the United States not to accept the
Cuban constitution as adopted by the
Havana convention caused great sur-
prise and keen disappointment to
those members of the convention who
voted in favor of the constitution as
adopted. Two leading conservatives
said they had reason to suppose the
constitution would be acceptable to
Washington and that otherwise they
would not have voted for the majority
report as submitted. Both delegates
expressed regret that a misunder-
standing had arisen, and said they
doubted that the convention would
reconsider its action, as the fight had
been hot, the victory won by only one
vote, and those who tried to do their
duty toward their country had been
assailed as traitors and perjurers.

Ohio Incorporations.

Columbus, O., June 1.—Toledo
Steamboat company, Toledo, \$4,000;
New Philadelphia Water company,
New Philadelphia, increase from
\$125,000 to \$150,000; Toledo Auto-
mobile company, Toledo, amendment
changing name to the Toledo Motor
Carriage company; Cleveland-Canton
Spring company, Canton, \$100,000;
Portsmouth Hat company, Port-
smouth, \$25,000; Lake Shore Transit
company, Vermilion, increase from
\$400,000 to \$500,000; Archer Manu-
facturing company, Middleport, \$1,500;
Singing and Mutual Aid Society "Ein-
tracht," Cleveland; Northern Con-
struction company, Bryan, reduction
from \$50,000 to \$10,000.

WIND

Rain and Hail Down
in Texas

Creates Havoc

Throughout an Exten-
sive Area.Hail Piles Up Twenty Inches
in Depth in the City
of Houston.City of Dawson, Georgia, Suffers
Heavily from Wind and Hail.
Houses Crushed Like So
Many Egg Shells.Dawson, Ga., June 1.—A terrific
wind and hail storm visited Dawson
doing considerable damage. The storm
struck the northern portion of the
city, completely destroying a large
amount of valuable property. Roofs
were blown off the Dawson Grocery
company's warehouse, and the Daw-
son crate and box factory and off both
the Seaboard and Central railway
freight warehouses. The top and
smoke stack were torn from the cot-
ton compress and the Dawson oil
plant is partially destroyed, the re-
finery being a total wreck. The wind
played havoc in the negro quarter, to-
tally destroying a great many houses,
including a new church which had
just been completed and leaving the
large Odd Fellows hall a mass of
ruins. Stock was killed by lightning.
Crops in this section are greatly da-
maged by rain and hail and the fruit
crop which was ripening very fast is
badly injured.About 20 houses were destroyed in
and near Dawson. Telephone and
telegraphic communication is cut off
and all electric wires are down.

Hail 20 Inches Deep.

Houston, Tex., June 1.—A heavy
rain and hail storm covering a wide
area did great damage to crops, es-
pecially fruit, eastern Texas having
been affected to a greater extent than
any other section. A special from
Longview says hail was 20 inches
deep in places and much damage was
done. A special from Palestine says
the damage to property inside the
city and to the crops in the surround-
ing country will reach \$150,000. Spe-
cialists show the greatest damage sus-
tained in the counties of Anderson,
Nacogdoches, Rusk, Shelby, Smith,
Hill, Gregg, Cherokee and Fisher,
while many other counties report
lighter damage.

MACARTHUR

Wires That More Volunteers
are Enroute Home.Effort of the War Department to
Start All Volunteers for Home
Before July First.Washington, June 1.—Gen. Mac
Arthur today notified the war depart-
ment that the last of volunteer army
sailed yesterday from Manila for San
Francisco. The cablegram reads as
follows: "The transport Logan sail-
ed May 31, via Nagasaki with two bat-
talions of the 38th Volunteer Infantry,
21 officers and 577 enlisted men; and
the 44th Volunteers Infantry, with 36
officers, and 1061 enlisted men." Signed,
"Mac Arthur." The promise
of the war department that all of the
volunteer soldiers would be mustered
out on or before June 1, cannot be
literally fulfilled, but not many days
will elapse after that date before all
will be at home or on their way home
from San Francisco.

GREAT EXCITEMENT.

Over the Discovery of New Gold
Fields in Reservation.Fort Worth, Tex., June 1.—Great ex-
citement prevails over the discovery
of gold in the Wichita mountains in
Kiowa and Comanche Indian reserva-
tion. It is claimed that are runs \$250
in gold and \$150 in copper to the ton.
Hundreds of claims are being worked.
The government has established a
post office in the district and hundreds
of people are flocking to the scene.

Jove on a Frolic.

Meridian, Miss., June 1.—A terrific
wind and hail storm passed over this
city. The electrical display was some-
thing the like of which was never
before seen here.

NEAR PRETORIA

The British Troops Are Reported As
Having Been Defeated.London, June 1.—A rumor is cur-
rent here that the British were de-
feated near Pretoria, losing 48 killed,
80 wounded and 600 missing. The
rumor is not credited at the war of-
fice.

Bold Robbers.

Seattle, Washn., June 1.—In broad
daylight and in the heart of the busi-
ness section of Seattle, Geo. Mulligan,
president of the Eagle City Mining
Company, was clubbed and robbed of
\$17,000 yesterday.

Anarchists Arrested.

Madrid, June 1.—Two anarchists,
an Italian and a Spaniard, have been
arrested in consequence of a warning
from Marseilles that the men were
coming to Madrid to assassinate
Queen Regent Marie.

SENATORS

Of South Carolina Are
Up Against it.Resignations of Both Sena-
tors Are Rejected.Governor of the State Declines to Add
Impetus to the Bitterness
Which Would Follow Such
a Contingency.Columbia, S. C., June 1.—Governor
McSwain, acting, said, in ac-
cordance with the wishes of the peo-
ple, who did not wish a primary with
its incident strife and unrest, refused
to accept the resignations of Senators
Tillman and McLaurin.These resignations were announced
at a political meeting in Gaffney, May
25, and were mailed to the governor
that night. He received them the fol-
lowing morning when about to leave
for Chickamauga to participate in the
unveiling of a monument.Immediately after the governor re-
turned from the work a communica-
tion to the senators in which he said
at first that he "returned their resig-
nations for further consideration." In
the closing paragraphs of his let-
ter, however, the governor unequivocally
"declines to accept" the resigna-
tions. His reasons may be put for-
ward in a few words. A canvass be-
tween them would result in bitter-
ness, stir up the people just at a pe-
riod when they are trying to get to-
gether for the material progress of
the state, and would be a campaign of
personalities instead of education.Senator McLaurin says he will
withdraw his resignation as requested
by the governor. Senator Tillman
says the governor can only advise a
withdrawal, otherwise he must notify
the president of the senate and the
legislature of the vacancy.

Kitchener Again Regrets to Say.

London, June 1.—General Delarey
celebrated the anniversary of the en-
trance of Lord Roberts into Johannes-
burg by attacking General Dixon's
forces at Vlodfontein, which is only 49
miles from the Boer metropolis. Lord
Kitchener sends the following report
of the engagement: "General Dixon's
forces at Vlodfontein were attacked by
Delarey's forces and there was severe
fighting. The Boers were eventually
driven off with heavy loss, leaving 35
dead. I regret that our casualties
were also severe. The killed and
wounded numbered 174. Four officers
were killed."

Lutheran Home Missions.

Des Moines, June 1.—The Lutheran
home mission board's report was
adopted after some discussion. Re-
marks were made touching on the
home mission work by Dr. M. W.
Hanna of Washington, D. C.; Dr.
Conrad Huber of Richmond, Ind.; Dr.
H. L. Willes of Mansfield, O.; Dr.
Groenmuller of Rockport, Mo.; and
Dr. Abram Miller of Alliance, O. All
commended the work of the board.
Baltimore, Md., will probably get the
biennial meeting in 1903.

End of Family Quarrel.

Covington, Ky., June 1.—A frightful
tragedy took place at the home of
Otto Hester on Western avenue and
Third street, Covington, and the bod-
ies of an entire family lie at the
mortuary. Mrs. Kate Hester, 32, after
a quarrel with her husband, Otto, 42,
at the supper table, shot and killed
him, as well as their 3-year-old daugh-
ter, after which she put the revolver
to her own head and blew out her
brains. It is not known what was the
cause of the quarrel.

Couldn't Get Rates.

Indianapolis, June 1.—Indianapolis
sluicing societies decided not to at-
tend the Sengertest at Buffalo. This
is due to failure to secure satisfactory
rates from the Central Traffic as-
sociation. Louisville and Evansville so-
cieties will also stay at home, it is re-
ported here.

TEST

Is Made by the
Filipinos

To Settle It.

Who are We and Where
are We At?Is the Question Which the
Ambassador is Unable to
Satisfactorily Solve.Residents of the New Territory are
Denied Passports Because they
are Unable to Prove Am-
erican Citizenship.London, June 1.—Two men, repre-
senting themselves to be Filipinos,
called at the United States embassy
and made application to Mr. Choate
for passports. These the ambassador
declined to issue, giving as a reason
that they furnished him no evi-
dence that they were American citi-
zens. The applicants persisted and
Mr. Choate then assured them it was
quite impossible for him to comply
with their request unless evidence
were submitted that they were en-
titled to the privileges of American
citizenship. Finally the applicants de-
parted, after intimating that they
would carry the question to Wash-
ington. They were not accompanied
by legal counsel.

Chance For a "Squeeze."

Peking, June 1.—China's uncondi-
tional acceptance of \$50,000,000 taels
as the indemnity to be paid the pow-
ers has caused great satisfaction
among the foreign ministers, as it
leaves, practically, only a few minor
details to complete the negotiations.
The phrase in the joint note, "to the
satisfaction of the powers," may
cause some delay in the evacuation of
Chinese territory, as the ministers
fail to see how China can guarantee
payment, and as all the ministers be-
lieve it would be a mistake to have
a large body of foreign officials col-
lecting revenue. Were revenue thus
collected, over 2,000 officials would
be required, and the aggregate sal-
aries of these men would be very
large and amount to more than the
ordinary Chinese "squeeze."

Loomis Will Not Go Back.

Washington, June 1.—It is officially
announced that Minister Loomis will
not return to Venezuela. Mr. Loomis
suffered in health at his congenial
post. The president, moreover, is not
disposed to expose him again to the
attacks made on him in Venezuela
because of his execution of orders
from the state department. Mr.
Loomis, who is now in Europe seeking
to recuperate, will be given another
diplomatic position as soon as a suit-
able place can be found. Meanwhile,
Mr. Russell will remain in charge of
the United States legation at Caracas
for a period not yet determined, but
likely to be fixed by the attitude of
the Venezuelan government.

Social Democratic Ticket.

Columbus, O., June 1.—About 50
delegates from Cincinnati, Columbus,
Cleveland, Toledo and Dayton, rep-
resenting the Ohio Social Democratic
party, assembled here and nominated
the following state ticket: Governor,
H. C. Thompson, Cincinnati; lieuten-
ant governor, M. Helmes, Dayton;
auditor of state, E. H. Randall, Spring-
field; attorney general, John C. Wil-
fert, Cleveland; treasurer of state,
John Friedenthal, Toledo; judge of
the supreme court, Peter Frank of
Portsmouth; member of board of pub-
lic works, John Flynn, Canton.

Want a Labor Party.

Denver, June 1.—The Western Labor
union adopted resolutions declaring
that the existing political parties are
dominated by the capitalist class and
instructing the executive board of
the organization to take the necessary
steps for the establishment of a new
party in the interests of labor. Res-
olutions were also adopted directing
the executive board to urge congress
to re-enact the Chinese exclusion law
and to pass a similar law against the
immigration of Japanese and all other
Asiatics.

Said to Be Short.

El Paso, Tex., June 1.—It is said
that a shortage of nearly \$10,000 has
been found in the accounts of Cash-
ier Martinez of the Mexican Central
railroad at Torreon. Martinez left
Torreon two weeks ago and his con-
tinued absence caused the officials of
the road to send Auditor Healy to
Torreon to check up the cashier's
accounts.

What Cecil Wants.

Bulawayo, Matebeleland, June 1.—
Cecil Rhodes, in a speech before the
chamber of mines here on the difficul-
ties of obtaining laborers, advocatedthe adoption of legislation controlling
the importation and deportation of
Chinamen. He further announced
that contracts had been made for the
construction of 160 miles of the new
railroad to the Wanki coal fields.

May Succeed Buffington.

Washington, June 1.—Rumors in
the war department are that Captain
William Crozier of the ordnance de-
partment has been practically select-
ed to succeed General Buffington as
chief of ordnance after the retirement
of that officer this fall. He is one of
the junior officers of the ordnance de-
partment.

Ferry Boat Capsized.

Chicago, June 1.—John Bealinski,
William Greening and Peter Jesky,
bridge carpenters, were drowned in
the Calumet river by the capsizing of
a ferry boat. Five of their compan-
ions, who were also thrown into the
water, were rescued by the police.

Mustered Out.

San Francisco, June 1.—The Forty-
sixth regiment, United States volun-
teers, was mustered out.

RUSSIANS

Should be Forced to Explain
This Affair.An American Agent Held in Prison
in St. Petersburg for Months
Without a Hearing.New York, June 1.—L. James Gor-
don, an American, has been locked in
prison at St. Petersburg since last
January and has had no opportunity
to communicate with friends who have
just heard of his imprisonment. No
reason has been given for his arrest.
He was an agent for the Rodgers Lo-
comotive Works. The firm had
heard nothing from him since last
year. The state department at Wash-
ington will investigate the affair.

Cattle Markets.

Chicago, June 1.—Cattle 200, steady;
hogs 19,000, active, 2½ cents to 5
cents lower. No sheep.

EXTRA

Session of Congress May
be CalledBut Cabinet Members Keep
a Closed Month.The Philippine Question as Regards
the Tariff is Forced to an Issue
by the Supreme
Court.Washington, June 1.—The cabinet
at its meeting was unable to reach
any conclusions as to the Philippine
tariff situation as affected by the re-
cent insular decisions of the supreme
court. Attorney General Knox will
make a careful examination of the
language of the decisions at once and
ascertain their exact bearing on the
tariff between this country and the
Philippines. Mr. Knox may report
his conclusions on the subject at the
next cabinet meeting, and probably
will discuss the result of his examina-
tions with the president individually.
Meanwhile discussion of the need of
an extra session is deferred, consid-
eration thereof being regarded as pre-
mature at this time. Members of the
cabinet individually refrain from even
expressing their personal opinion as
to the possibility of congress being
convened in extraordinary session.

Bogus Car Tickets.

Washington, June 1.—Frederick H.
Engley, a conductor on the Washing-
ton Traction company's lines, and his
brother, Samuel E. Engley of Hyatts-
ville, Md., whose arrests on charges
of forgery revealed an alleged plot
for flooding the city with bogus car
tickets, were arraigned and waived ex-
amination. The police had received
a cablegram from the authorities of
Glasgow, Scotland, announcing that
they had recovered the plates from
which the bogus tickets were struck,
and that along with them were recov-
ered 40,000 sheets of tickets, aggregat-
ing 240,000 tickets. The bail of each
of the two men was fixed at \$5,000,
which they were unable to furnish.

Mexican Congress Adjourned.

City of Mexico, June 1.—The fed-
eral congress adjourned after an im-
portant session. It made large ap-
propriations for public works, includ-
ing harbor improvements, canals, new
buildings and for the embellishment
of this capital. It sanctioned great
sanitary undertakings for the promot-
ing of the health of the various ports
of the country, and legislated to main-
tain the public credit. The appropri-
ations are largely taken from the ex-
isting cash surplus of the federal gov-
ernment, and taxes have not been in-
creased. Congress will reassemble in
September.

CUBA

Must Yield to Mc-
Kinley's Wishes.

General Wood

Notified of President's
DecisionAnd Instructed to Notify the
Cubans What is Expect-
ed of Them.The Matter is Again Up to the
Cuban Convention and the Ad-
ministration Awaits its
Action.Washington, June 1.—The amended
version of the Platt proviso adopted
by the Cuban constitutional conven-
tion has been rejected by the presi-
dent and cabinet.The cabinet holds that the amend-
ments and interpretations and where-
ases placed by the Cuban convention
upon the Platt amendment amounted
to a practical modification thereof
such as is beyond the power of this
government to accept. The message
of rejection sent to General Wood ad-
vises the Cubans in unqualified lan-
guage that there is no power resting
in the administration to change the
terms of the Platt amendment, and
that this government insists on the
acceptance of the Platt amendment,
without amendment or qualification.
The Cuban convention is still in ses-
sion, and the message of rejection
will be delivered to it immediately.As to the next step likely to be
taken by the administration after the
Cuban convention has been notified
of the rejection of its action, a mem-
ber of the cabinet said the adminis-
tration could do nothing further until
the convention again acted; that as
long as the provisions of the Platt
amendment were on the statute books
compliance with them must precede
relinquishment of control over Cuba.
The three main points in which the
action of the Cuban constitutional
convention is regarded as unsatisfac-
tory relate, it is said, to coaling sta-
tions, sanitation and intervention.

Four Men Hanged.

Alturas, Cal., June 1.—Calvin Hall,
72, and his three sons, Frank, 26;
Jim, 19, and Martin, 16, and Dan Yan-
tis, 27, accused of petty stealing, were
arrested and guarded by officers. A
mob of 40 masked men took them and
hung them to a bridge near Lookout.
The officers in charge of the prison-
ers were overpowered and compelled
to help hang them. The mob dis-
persed within five minutes. Sheriff
Street and District Attorney Bonney
went at once to the scene.

Returned to Work.

Providence, June 1.—The 250 strik-
ing machinists of the Providence En-
gineering company returned to work
in pursuance of their agreement with
the company. They were granted the
9-hour day and after three months will
receive the advance in wages. There
are yet 250 men out in this city, at
the Corliss works, whose officials
have refused to treat with the men.

Short Day Basis.

Philadelphia, June 1.—An agree-
ment was effected with the 250 ma-
chinists of the Pennsylvania iron
company, who have been on strike 10
days. The men will return to work
on a 9-hour basis.

Jockeys Quarrel.

Denver, June 1.—James A. Dunn, a
jockey, was shot in the knee and be-
hind the ear by Victor Collins, another
jockey, in a quarrel at Overland
park. Dunn was taken to a hospital.
Collins escaped.

Return of the Germans.

Berlin, June 1.—The German gov-
ernment has chartered 13 steamers to
bring home the troops in China. It is
reported that about 18,000 men will
have arrived by the end of September.

Victory For Gans.

Baltimore, June 1.—Joe Gans of
Baltimore knocked out Bobby Dobbs
of Minneapolis in the seventh round
of a bout scheduled for 20 rounds.

Gaily Off For Manila.

San Francisco, June 1.—General A.
W. Greely, chief signal service of the
army, sailed today for Manila on a
tour of inspection.

The Weather.

For Ohio—Unsettled weather, with
showers; variable winds.

TO THE POINT.

News of the Four Quarters Presented
in Popular Form.
Brigadier General Thomas Wilson,
U. S. A., retired, died in New York.
Army surgeons in session at St.
Paul, Minn., demand repeal of anti-
canton law.

The bather sometimes finds the same soft and yielding to his feet. It does not trouble him and he goes on until presently he sinks to his knees and covers to his horror that he has to fight for his life in a quicksand.

Disease is much like the quicksand. The first symptoms of stomach trouble do not cause anxiety. But when the body grows weak through lack of nourishment and disease of the stomach troubles the digestive system, the sufferer realizes his danger and seeks for medicinal aid.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and all other organs of digestion and nutrition. It cures diseases of heart, lungs, liver, kidneys, etc., when these diseases have their origin in disease of the stomach and its allied organs.

Thomas A. Swartz, of Sub-Stanton, C. Columbus, Ohio, writes: "I was taken with severe headache, then cramps in the stomach, and my food would not digest, then kidney and liver trouble, and my back got weak so I could scarcely get around. At last I had all the complaints of a stomach trouble. I had been so poorly I could only walk in the house for the aid of a chair, and I got so thin I had given up to die. Then a neighbor said, 'Take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me so I thought I would get another, and after I had taken eight bottles, in about six weeks I was weighed and found I had gained twenty-seven (27) pounds. I have done more hard work in the past eleven months than I did in two years before, and I am as stout and healthy as ever. I think as I ever was."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

TILLMAN AND McLAURIN

Characteristics of the Two South Carolina Ex-Senators.

BOTH GIFTED WITH ELOQUENCE.

Utterances of the Former Have Attracted Comment All Over the United States—How Tillman Gained His Early Education and Lost His Left Eye—Sketch of McLaurin.

In view of the controversy between ex-Senators Benjamin Ryan Tillman and John Lowndes McLaurin of South Carolina, the following incidents in their lives descriptive of their characteristics are of timely interest.

Ex-Senator Tillman is fearless of speech; his tongue is vitriolic, and he is gifted with a rare eloquence, says the Chicago Herald. He was born on his father's plantation at Chester, Edgefield county, S. C., and during the war he attended school at Liberty Hill, 30 miles away. The boy's craving for learning and his indomitable will were

displayed when he was 15 years old. He knew that at 16 he must enter the Confederate army. His elder brothers in the field wrote back to him that he must make the best of his opportunities while at school, for the war might last so long that he might never have educational advantages. So young Tillman, when supper was eaten, would carry a lighted pine knot to the woods and there in the solitude of night study his Greek roots and Latin conjugations. One night the heat of the torch injured his left eye. A hurried and indiscreet plunge of his head into cold water brought on a pulpy tumor, and when the eye was well the war was over, and the sight was gone.

Tillman is a remarkable man. There is not another man like him in all the world. If he was a preacher, Sam Jones would be unworthy to hold a candlelight for him. As a pulpit fanatic he could arouse this country from the Atlantic to the Pacific, once remarked a correspondent of the St. Louis Republic.

I have seen Tillman speak to a multitude of 5,000 men in the heat of a political campaign; heard him brand his accusers as "infernal liars and unmitigated scoundrels." I have seen 5,000 men pull Tillman from the stand and lifting him high into the air, rush off with the most enthusiastic yells that ever echoed from mortal lips.

The lifting of a single finger of his caused a great concourse of people to hiss that brave and gallant old southern hero, General Wade Hampton, when he attempted to make a speech to his fellow citizens in his native state, and the simple "passing down the word" sent the young man tramping to the senate as Hampton's successor.

Tillman never made a political speech until 1885. Then he suddenly sprang before the poor farmers. He used homely illustrations, and often they were forcible. He addressed enormous mass meetings and said things which attracted comment all over the United States. Here are some: "I deny that all men are created equal."

"I would rather go to hell with my followers than to heaven with the other crowd."

"I am one of God Almighty's gentlemen."

"I am rough and uncouth, but before God Almighty I am honest."

Ex-Senator John Lowndes McLaurin of South Carolina is a member of a family of old-time southern politicians, his father having been a prominent figure in his section before the war and his mother having been a Miss Weatherly and a descendant of a long-line of officeholders. He is a native of Marlborough county, S. C., and went at an early age to Englewood, N. J.

His school career was a stormy one, beginning with a misunderstanding with a teacher in a Quaker school near Philadelphia which terminated disastrously for both the teacher getting a drubbing and young McLaurin a dismissal. As an athlete he was popular with his school fellows, however, both at the military school which he afterward attended at Charlotte, N. C., and the University of Virginia, where he took the law course, being graduated in 1882.

He was successful as a lawyer and was an early recruit of the Tillman movement. In 1890 he was elected to the state legislature, and in 1901 he became attorney general of the state. He was a special pet of Senator Tillman, then governor, who spoke of him officiously in public speeches as "little curly head Johnnie" and thereby fastened that nickname upon him.

Mr. McLaurin is 5 feet 10 inches in height, weighs about 175 pounds and carries himself as straight as an Indian. He is an eloquent speaker, has curly brown hair and blue eyes and a complexion as fair as a girl's.

A Thoughtful Husband.

The wife—As if I didn't know where you were last night. Don't you know you cannot deceive me?"

"Of course I do. But I always try to because I know it gives you so much pleasure."—Life.

NO OFF YEARS IN OHIO.

"There are no off years in Ohio politics. It is evident that a battle is no between the Tom Johnson faction and the John R. McLean faction. Both of these sometime democrats would like to be sent to the United States senate, and there is only one senator to be chosen. The quarrel will probably result in the usual Kilkenney solution."—Phila. Record.

THE WRONG HEAD.

It is said that the naval board at Washington will place the head of Admiral Sampson on the medals ordered by congress to commemorate the victory at the battle of Santiago. If this be done the medal will not show the head that gained the victory.—Chicago Chronicle.

The Presbyterian General Assembly has decided that the creed needs revision. While the vote was decisive in regard to creed revision, it does not settle the question. The committee appointed to revise the creed must make its report after considering its work, to the Presbyteries of the church when a two-thirds vote is necessary to amend the constitution. Commenting upon this subject the Pittsburgh Dispatch says:

"The action of the General Assembly is indicative of a sentiment that is paramount and will have weight, but is authoritative only to procure the revision and its submission. The vote in assembly permits a doubt whether two-thirds of the Presbyteries can be induced to endorse the work of the committee. The confidence of the revisionists undoubtedly rests upon the belief that formal action of the Assembly will disarm conservatism, and that many Presbyteries formerly opposed to modification of the doctrine will prefer to go with the majority rather than prolong the controversy with the attendant danger of a division of the denomination."

Celina wants the judicial convention for this district and the Standard places before the district an invitation in the following words, to meet at the reservoir town and nominate the judge.

The contest for the common pleas judgeship will soon be decided at what promises to be a stirring convention. It has been suggested that Celina is the proper place to hold the convention and the Standard hereby extends the suggestion that strenuous efforts be made to secure the convention. Mercer county having no candidate of her own will be neutral ground for the candidates and their friends to meet and decide as to the winning nominee. Celina, with its multiplicity of railroads is within easy reach of all delegations, and famed for its hospitality, the democrats of this judicial district will be most heartily welcomed to our midst. The convention will be called within the next few weeks, and no better place in the district can be selected than the county seat of old Mercer.

European astronauts of stout hearts and meagre love of life are planning a balloon trip across the Atlantic. Are they likely to persuade any insurance companies in either hemisphere to issue policies in their favor? No trace of the historic but over adventurous Andre has yet been discovered. It is true that he sought the north pole, and was not trying to cross any of the great oceans from east to west or from west to east. But still his fate should be a warning. In some late time airships may go over the

breasted seas without peril, but in present conditions balloons are not much more likely to pass above the Atlantic or the Pacific in safety than they are to find a secure landing in the moon or the planet Mars.

It is expected that the census returns for 1900 will show a large growth of the depths of American cities. Thus it is known that the net public debt of New York has increased from \$114,000,000 four years ago to \$308,000,000, and the work on rapid transit has only begun. The debt of Philadelphia is now \$48,000,000—an increase of \$9,000,000 in three years. Chicago's debt has grown from \$17,000,000 to \$26,000,000 in three years; Boston's from \$48,000,000 to \$56,000,000, while that of Baltimore (now \$31,000,000) has more than doubled since 1897. In most cases there has been ample warrant for the increase, but it is probable that with reformed municipal administration the same benefits could have been achieved at less cost.

King Edward is said to be indignant over the suppression of William O'Brien's Dublin newspaper The Irish People. He ignores the libelous diatribe launched against him by that obscure little sheet, saying he is content to leave his character in the safe-keeping of the public. In acting and speaking as he did and in giving explicit orders against the suppression of any public prints in the future the King has shown himself superior in good sense to his overzealous ministers.

Proposition—Ministers to
Talk on the Subject.

The south side citizens generally are dissatisfied with the attitude of the majority of the members of the school board on the new high school building proposition and tonight a mass meeting of citizens will be held at the hose house at 7:30 o'clock to discuss the proposition. Rev. W. H. Leatherman and Rev. Clarence Mitchell have been requested to address the meeting on the subject and they will also discuss the matter from their respective pulpits tomorrow. A large attendance may be expected at the meeting.

WALLACE

Pitches a City of Tents in
Lima.From Everywhere the Circus Has
Been Come Words of Warmest
and Most Sincere Praise.

The best tribute paid to Wallace's circus, outside of the fine parades which were made today, is the testimonials which fill the Indianapolis papers. Harry Hardy, who is so well known in Lima, has a trunk full of newspaper clippings which declare that Wallace is at the head of one of the best and cleanest aggregations on the road today. The hundreds of personal friends of Hardy in Lima know this particular statement to be true or Hardy would be found somewhere else. Mr. Hardy, who is the husband of Rose Melville, of Sis Hopkins fame, an actress who is as much at home in Lima as in any other city on the globe, is the press agent of Wallace's aggregation and it would take the whole of Pinkerton's detective agency and chief Hazen of New York to find a better one. As for the show, nothing but words of praise can be found in the amusement columns of the metropolitan papers. This is probably the best assurance of a first-class entertainment and if the circus is not up to the standard the eyes of the amusement loving public have been thoroughly blinded. The Wallace circus Sundays in Toledo, where an exhibition is to be given Monday.

"But your amateur farming doesn't pay expenses, does it?"
"I hope so. I am going to write a book about it."—Chicago Tribune.

A WORK COUNTING CLOCK.

New Machines and Shop Methods as
Seen by a Mechanic.

The admirable organization of some of the manufacturing establishments of the United States and the perfection of machines and processes which do away largely with the need of manual skill were admirably brought out in an address made by Isaac Cowan before the Central Federated Labor union.

Mr. Cowan had just returned from a trip which had kept him among the shops of the manufacturing cities of Ohio, New York and Pennsylvania. "At Homestead," he said, "the men still remember when their comrades were shot down by Pinkerton men, and they are afraid to organize. Among the new men who have come in since that time there is another reason why they do not organize."

"High skill is no longer needed to make steel, as it once was. The furnaces and machines are so perfect that a man fresh from the farm can make iron or steel as well as the trained hand."

Mr. Cowan spoke of the Pennsylvania railroad shops at Altoona. "They are filled with the latest and most perfect machinery," he said, "and, although the men are paid by piecework, I would as soon work at piecework there as for wages in many of the western shops. Everything is open to inspection. You can go through the shops and take drawings of anything you want."

"They have got things down so fine now that a boss might go to Europe and stay six months and when he came back tell you just what you had been doing during every hour of every workday. They have a clock that tells it all. One is attached to every machine tool. The clock has three hands. The first hand tells just how long the machine has been run and the hour and minute when it was started and stopped."

"The second hand tells the depth of the tool cut. When I used to work at the trade, we had a way sometimes of letting a machine run and not have the tool cutting. We used to call that 'cutting wind.' The clock tells when a man has been 'cutting wind.' The third hand tells the speed at which the machine has been run. The boss has only to look at the clocks to tell just what each man has been doing."

HOUSE FOR YOUNG DEPEW.

It's a Gift From the Senator to Test
His Son's Business Ability.

Senator Depew recently decided to his son, Chauncey M. Depew, Jr., a house and lot in New York. The transfer of the property to his son, who is a student at Yale and is to be graduated there this June, gave rise to a rumor that the young man was intending to marry and that was the reason for his father's gift. Senator Depew laughed at the story when it was brought to him the other night. He said that, as far as he knew, marriage was very far away from his son's thoughts.

"The transfer of this property to him," he said to a reporter of the New York Sun, "may be said to formally mark the beginning of his business career. He was 21 years old last summer, but I thought I would defer making such a gift on account of the responsibility it would bring until he had completed his studies. The property isn't unimproved, and I am glad that it isn't. It's got a \$15,000 mortgage on it, and the lifting of that mortgage by shrewd management of the property will be a good test of Chauncey junior's business ability. I am looking forward to the experiment with a great deal of interest."

MINERS' RACE FOR FORTUNE

Taking Out \$1,000 in Gold Per Day
on a Lease Soon to End.

James Witt, a native miner of Dahlonega, Ga., is working night and day to gain fortune from a rich gold shoot which he discovered before his lease on the El Dorado expires. The mine which Witt is working is the old Finley vein, 14 years ago accounted the richest mine in the Georgia gold regions, says the Philadelphia Press. The vein was lost about ten years ago and the mine abandoned.

Witt leased the property for a nominal sum on speculation and had about abandoned hope when suddenly as it had vanished the gold-bearing ore reappeared, and Witt began taking out large quantities of the precious metal. The owners in some way learned of his good luck and absolutely refuse to extend his lease. Witt is abstracting gold at the rate of about \$1,000 per day.

A Spanish-American War Album.

The pictorial history of the Spanish-American war which the war department is constructing will when finished be a very beautiful affair, says a Washington dispatch to the New York Post. It is an album of photographs enlarged to a uniform size of 10 by 12 inches and bound chronologically. The first picture represents the first scene of a soldier's life—enlisting. Then come the drills, the get away, the camp, the departure from Florida, the landing at Guantanamo, the battle of San Juan Hill, etc. The series has already advanced to the landing. The photographs are in many cases snap shots, but Captain Root, who has been detailed to this work, is an expert photographer and has had great success in enlisting small negatives. Thousands of photographs have been sent to the department, and the album will have the pick of the best.

Issued on a Barn Which wasDestroyed by Fire
Last May.

In the case tried in common pleas court yesterday of the insurance company against the Times-Democrat Publishing company and the Metellus Thomson company, an action brought to recover insurance money paid on a policy on a building destroyed by fire, and which the plaintiff alleged the defendants were responsible for, the jury, after a short deliberation, returned a verdict of "no cause of action."

BOARD MEETS MONDAY.

Chicago, June 1.—John Stewart, a Dowieite supposed to be a leper continues to roam the streets and mingle with people in and out of Zion. Since it has been made public that Stewart is a leper and even has been playing with children in the neighborhood of his home, the fathers and mothers have been filled with fear and anxiety. It is now known that Stewart attended the Dowie services at the auditorium, last Sunday and that he went on an excursion to Zion City on Memorial Day.

County Oil Promises a Good
Investment.

The Urbana, Ohio Citizen says: "Well No. 3, which has been drilled near Quincy, under the direction of the company in which there are several local capitalists, was shot Friday and a flow of from five to eight barrels was secured. While the well is no gusher the gentlemen who are interested are satisfied with the finding of oil in the well which gives promise of being a good lasting flow. They will immediately commence the work of sinking another well."

This is the third well on the same line, the first one sunk has been in operation over two years and the company has taken out over four car loads of oil since it was shot. Well No. 2 has never been supplied with pumps and occasionally there is an overflow. Captain Nutt says that there is 1374 feet of oil in the well.

The prospects are that there is another "Beaumont" right there in Logan county."

Dr. David Kennedy's Favorite Remedy

By Special Arrangement Every Reader of the
TIMES-DEMOCRAT can Obtain Absolutely Free
a Trial Bottle of this Wonderful Medicine.

To every suffering woman who is broken down in health from what is commonly known among women as female weakness; to every woman who is troubled with painful or irregular periods, and to all those who are tired, weary and languid, who have kidney or bladder trouble and pains in the back and hips, we will send a **SAMPLE BOTTLE OF DR. DAVID KENNEDY'S FAVORITE REMEDY** absolutely FREE, as we desire to help suffering humanity, and we want every woman to know how she can be permanently cured by Dr. David Kennedy's Favorite Remedy. If every woman who is suffering with female weakness and painful menstruation would take Dr. David Kennedy's Favorite Remedy they would be made well and strong and better fitted for their sphere in life as happy wives and mothers, and their children would be brought into the world robust and strong.

GIVEN BY PHYSICIANS.

Dr. David Kennedy's Favorite Remedy cured Mrs. D. Ackerly, of Jersey City, who says: "Oh, how I wish I could speak personally with every woman who is in any way troubled with illness common to our sex, for I would advise them to use at once Dr. David Kennedy's Favorite Remedy and be cured, for my case was abandoned by the physicians."

There is no female weakness or irregularity which Dr. David Kennedy's Favorite Remedy will not relieve and cure. There is no pain or ache peculiar to women which it will not drive away.

HOW TO TELL.—Take a bottle or tumbler and fill it with urine let it stand twenty-four hours. If you find sediment at the bottom or a milky or cloudy condition, something is wrong with your kidneys.

A desire to urinate often, a pain through the small of the back, or if your urine stains linen, these are all sure signs that the kidneys and bladder are affected. There is a cure for these troubles, and it taken promptly it will save you a long and perhaps a surgical operation. Dr. David Kennedy's Favorite Remedy quickly relieves and cures inability to hold urine, it overcomes that unpleasant necessity of being compelled to get up many times during the night, and corrects the bad effects of whiskey and beer. It has cured hundreds of the most distressing cases.

A daughter of Mrs. Christina Best, of Jonesport, Me., suffered greatly from female troubles. No doctor could help her. Dr. David Kennedy's Favorite Remedy made her strong and well.

Dr. David Kennedy's Favorite Remedy

Feeds the blood with Red, Life-giving Corporules. It is of great value where the nerve-force, general strength and vigor are wasting away. In Rheumatism and Gout it quickly transforms the Uric Acid in the blood into urea, which is the cure for these diseases. It is the only kidney medicine that acts as a laxative; all others cause constipation, which is most objectionable and dangerous to the diseased system.

Trial Bottle Free

By special arrangement with the Dr. David Kennedy Corporation, readers of the Times-Democrat are enabled to obtain a trial bottle of this wonderful medicine and a pamphlet of valuable medical advice absolutely free, by simply sending their full Post Office address to DR. DAVID KENNEDY CORPORATION, Portland, N. Y., and mentioning having seen this generous offer in the Times-Democrat.

The publishers of this paper guarantee the genuineness of this liberal offer. Favorite Remedy is sold by all druggists or direct, \$1.00 a bottle, 6 bottles for \$5.00.

Beauty is Health.

Wanted, June 1, 1900.
I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no longer a misery to me as it had been of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the weakness, which made me feel as if I was sinking, disappeared. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.
Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes, and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb? Beauty flows quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles 24.00 bottles of Wine of Cardui.

For advice and literature, address, Wine of Cardui, The Ladies' Advisory Department, The Chattanooga Medicine Company, Chattanooga, Tenn.

ANECDOTES OF IBSEN.

Some That Are Related of the Norwegian Dramatist.

UNIQUE TEST OF HIS PATIENCE.

Amusing Experiences While Writing His Wife—How the Poet's Wrath Was Aroused on One Occasion—His Keen Eye Folks a Swedish Newspaper Man's Snob Shot.

Anecdotes of well known men are always in order, and the following of Henrik Ibsen, the Norwegian author and dramatist, are of timely interest.

A pretty story is told of Henrik Ibsen's wooing of his wife, says The Rural Collaborator. When he fell in love with the beautiful daughter of Pastor Thoresen, how to make known the fact to her troubled him for weeks. At last he resolved to write to her. He would come and fetch his answer the same afternoon at 5. Did the lady accept him she would be "at home" otherwise not.

At 5 o'clock he presented himself, and the maid asked him into the best room. He was very hopeful, but when he had waited half an hour awful doubts began to assail him. Still he waited on. After two hours he began to be ashamed of himself. At last he jumped up in rage and ran to the door. He was opening it when a loud peal of laughter arrested him. He turned and saw the fair head of his adored emerge from under the sofa.

Her mouth was laughing, but her eyes were filled with tears. "Oh, you dear, good fellow, to wait all this while!" she said. "I wanted to see how many minutes a lover's patience lasts. How hard the floor is! Now, help me to get out, and then we will talk." In less than a week a marriage was arranged.

The following story is illustrative of Ibsen's wrathful but yet forgiving moods.

Some years ago Brandes was endeavoring to raise funds for the erection of a monument to the deceased Danish author Jacobson. He begged Ibsen to head the list of signers, saying that his name and only his would touch the hearts and pockets of the citizens of Copenhagen, says the Philadelphia Press. This flattering suggestion was lost on the impassive poet.

"What others will sign?" he asked. "All our prominent authors."

"Who are they?"

"Surely you know," replied Brandes, but he was compelled to repeat the names.

"Well, who else?"

"The Swedish writers."

"For instance?"

Brandes told him.

"Next?"

"The Norwegians."

"Names, please."

With a sign of resignation Brandes went through the list. When he came to the name of August Strindberg, Ibsen sprang up in a rage.

"I will not sign!" he exclaimed. "And why not, for heaven's sake?"

"He ridiculed my 'Nora'."

In vain did Brandes strive to explain that Strindberg's ridicule had been directed not against "Nora," but against some silly woman who had entirely misconstrued Ibsen's meaning. In vain did he offer to dispense with Strindberg's signature. The old poet remained inflexible. The mere suggestion of Strindberg had wounded him sorely.

The subscription was abandoned.

Some years later Brandes visited Ibsen in Christiania. In the poet's study over his desk hung a life size portrait of Strindberg.

"So you have forgiven him," said Brandes.

"Whom?" said Ibsen.

"He had forgotten and could recall only after an effort the hatred that he had felt for the young writer only a few years before.

Brandes tells an amusing story of Ibsen's reserve and awkwardness in society. In 1891 a number of Norwegian authors and art lovers resolved to honor Ibsen and themselves with a small and exclusive banquet. Ah, but who would dare to carry the invitation to Ibsen? Eventually the task fell to Brandes. Ibsen made objections, insisted on seeing the list of guests and balked at the name of a woman whom he did not know until Brandes convinced him that he had been in love with the woman's aunt many years previously. The banquet came to realization, but when, instead of the expected nine guests, Ibsen found himself confronted by 20 the last remnant of his good humor vanished.

He took his place without a word or a nod to any one. To Brandes' speech he curtly responded that this was a toast to which many objections might be taken, but he would not go into them at that time. When a witty young actress extended to Ibsen the thanks of the players for the roles that he had written for them, he growled that he had written no "roles" and that it had never entered his head when he was writing a play to devote five minutes' thought to the actors and actresses who might perform it.

This agreeable state of affairs continued throughout the banquet. But on leaving Ibsen remarked to Brandes with an expression of reluctant good humor: "It went off better than I expected. It was a very pretty little lunch."

And everybody agreed with him.

A good story about one of Ibsen's latest photographs, which appeared in the Christmas number of a Swedish magazine, is told as follows in the Cleveland Plain Dealer. It was the result of a

soap shot taken by a Swedish newspaper man who visited Christiania in the summer of 1890 for the purpose of catching the great man's likeness unaware. He chose a favorable day for the execution of his coup, placed himself in an advantageous position, just before the entrance to the Grand cafe and waited. Ibsen was punctual to the minute, and soon the miscreant noticed a white trail of joy that he had focused the figure of his victim. But he was intent on getting the best possible view and postponed, therefore, the consummation of the deed until Ibsen was only a few steps away from him; then he pressed the button and walked away with triumphant steps.

The disfigurement did not take place until he had developed the negative, which proved a splendid success in every way but one. The whole well known figure from the silk hat down to the broad posed shoes was there, but a bunch of paper held up by the poet's right arm was all that could be seen where the face should have been. The keen eye of Ibsen had apparently seen the lurking danger in good time. He had followed the movements of the enemy with the alertness of a threatened animal and at the critical moment had interposed the paper—some manuscript, presumably—between his features and the detested instrument.

The photograph was reproduced and published just the same, and it is to be suspected that the readers of the magazine enjoyed it much more than they would have done if it had been more successful from the photographer's point of view. They all recognized the lion in his bushy white mane, which the envious paper had been unable to hide from view.

TO ESTABLISH BIG SILK FARM

Italian Finds in South Carolina a Good Field For the Industry.

Having made a success of the cultivation of tea, South Carolina is now about to establish and conduct a silk farm, says the Chicago Record-Herald. The experiment has been started by Duke de Litta, who owns and operates an extensive silk farm in southern Italy. Experiments in the culture of silk have been tried before in South Carolina on a small scale, but the Italian nobleman intends to engage extensively in silk culture, and he is confident that his experiment will prove a success.

Duke de Litta visited relatives at Charleston several years ago, and it was during this visit that he conceived the idea of engaging in silk culture in the United States. Upon his return to Italy he sent to Charleston about 1000 cuttings of mulberry trees, which were planted on a large tract of land at Summerville, a dry, sandy place and resort 22 miles from Charleston. The trees were planted according to the directions that he left, and they prospered. He later sent there a lot of cuttings of another variety of mulberry trees, which are less hardy of growth, but are better suited to the feeding of the worms. These latter cuttings were grafted in the stumps of the first trees and now seem to flourish as well as the original trees. The experiment shows thus far that the Italian nobleman was correct in his opinion that the climate and soil of South Carolina were adapted for the silk culture. The successful growing of the trees has led to negotiations for the purchase of additional tracts of land in the vicinity and the extension of the industry.

Duke de Litta will arrive at Charleston next October, remaining for some time to give his personal attention to the development of the farm. He will bring over several peasants from his estate, who will train the labor and lend a general supervision to the farm. It is thought that there will be no difficulty in obtaining the labor which is needed. It is proposed to use negro labor, which is plentiful about Summerville.

YANKO ISLAND.

Facts About New Land Discovered in the Sea of Japan.

That there should be room for discovery of an island in the sea of Japan at this time of day seems hardly creditable, says the Montreal Star. It would almost be as much expected to make a discovery of the kind in the Caribbean sea. Yet, according to the Nichi Nichi, a Japanese paper regarded as reliable, it appears that an island was discovered at a point between Ul-long-do, island of Korea, and the Oki archipelago, about 30 miles off.

No maps heretofore have the island referred to. It is described as two miles long and about the same in width. Trees and grass are there, and it contains many inlets, affording good anchorage. The island was discovered by a fisherman about a year ago, he finding the waters about it fairly alive with sea horses. The new land is called Yanko by the fishermen of Japan and Korea.

Automatic Firemen For Trains.

With a view to preventing accidents at level crossings and collisions in the neighborhood of railway stations, a very ingenious mechanism has recently been used in France, says Pearson's Weekly. It consists essentially of a huge coil, or catch, made of iron, which is connected with a lever at the station by means of a wire, through which a current of electricity passes. When it is lying in its place, the train passes over it quite easily, but as soon as it is raised it catches a lever which is attached to the engine. The lever thus caught causes an air valve on the engine to open automatically and applies the brakes at once, so that the whole train is brought to a standstill within a very short distance. In foggy weather the use of such an apparatus cannot be overestimated, as it is calculated to prevent a train running into another which happens to be delayed at a station.

THE Y. M. C. A. JUBILEE

Grand Celebration to Be Held in Boston.

SPLENDID PROGRAMME ARRANGED

Over One Thousand Associations in All Parts of the World Will Be Represented at the Meeting. In June—Founder's Son Will Be Present in His Father's Stead.

An event of interest to the Christian world, and particularly to the evangelized portion of it, will be the celebration of the fiftieth anniversary of the Young Men's Christian association, to be held in Boston June 11 to 16, says the New York Herald. Judging from present indications, the gathering will be the largest in the history of the association and as remarkable for its personnel as for its numbers. Not only will a thousand or more associations in the United States, Canada and America's new possessions be represented by duly accredited delegates, but there will be an attendance from other foreign lands.

Mr. James Stokes has made a tour of the world, principally for the purpose of drawing attention to this jubilee celebration. As a result over a hundred gentlemen will be present from Europe, Asia, Australia, South Africa and South America. Among the countries to be thus represented are Austria-Hungary, Belgium, Denmark, Portugal, Russia, Spain, Sweden, France, Germany, Great Britain, Ireland, Holland, Italy, Norway, Switzerland, China, India, Japan, Australia and Brazil.

The programme of the Boston jubilee convention is an elaborate one. At the opening session addresses of welcome will be delivered by the governor of Massachusetts and the mayor of Boston, and responses will be made by prominent members of the Young Men's Christian association. The thirty-fourth annual convention of the Young Men's Christian associations of North America will be organized on the afternoon of the same day, and in the evening a reception will be tendered to President McKinley, Lord Strathcona, high commissioner for Canada, and distinguished foreigners of various nationalities, some of whom will bear messages from their government.

The second day will be devoted to convention work and general discussion. On the third day a tablet will be unveiled in the old South meeting house, where the Boston association was organized in 1851, and afterward a reception will be rendered the delegates by the Boston association in Faneuil hall. On the fourth and fifth days eminent men will speak. The jubilee will come to an end on Sunday, June 16, when a series of meetings will be held in Mechanics' building and in several churches.

One of the most attractive features of the gathering will be the singing by choruses, one serving at day, the other at evening sessions, each numbering hundreds of trained voices. The Boston association has arranged for numerous social entertainments and excursions to take place at odd times during the week and for a trip to Plymouth rock on the day after final adjournment, where an oration will be delivered.

The first organizations of Young Men's Christian associations on this continent were effected at Montreal and Boston, the former on Dec. 9, the latter on Dec. 20, 1851, and the first convention of American associations was held at Buffalo June 7, 1854, just ten years and a day from the founding of the parent society in London.

It was during a walk across Blackfriars bridge one Sunday evening in May, 1844, that George Williams and Edward Beaumont, both clerks in the business house of George Hitchcock & Co., decided to call a meeting to consider the advisability of forming "a society for improving the spiritual condition of young men engaged in the drapery and other trades." Young Williams conceived the idea, and Beaumont heartily approved it. The call was issued, and in response thereto 13 clerks met in what was then George Williams' bedroom on the evening of June 6, 1844.

After considerable discussion of an informal nature it was voted to form a society such as had been suggested and to name it the Young Men's Christian association, the name having been suggested by a draper's clerk known as "Smitty." A few weeks later a larger meeting was held, and the association was formally organized. Looking back over the 57 years that have passed, one may easily see in this group of London clerks and their bedroom meeting the germ of the great religious and social organization known today the world over as the Y. M. C. A.

George Williams afterwards became Mr. Hitchcock's son-in-law and business partner and upon that gentleman's death, in 1863, succeeded him as head of the large mercantile house in St. Paul's churchyard which for more than a century has been known to the draper's trade. Mr. Williams, or, rather, Sir George, for the late queen knighted the founder of the Y. M. C. A., is now 50 years of age and is in feeble health. For 56 years he has been active in the work of the London association and in close touch with the work at large, and it has been gradually broadened and extended into all lands.

Until quite recently it was Sir George's intention to attend the coming jubilee convention in Boston, but the condition of his health is such that he has been compelled to abandon the idea. He will be represented by his son, a member of the London association.

New Officers

Have Taken Hold of Detroit Southern

And a Bulletin Has Been Issued Announcing Successors of Old Officials.

McKelvey Resigns as General Sup't of Ohio Southern and His Successor Goes to Springfield to Take Charge.

Everything is being brought into rapid transition to perfect the dissolution of the D. L. N. and the Ohio Southern railroads, and phoenix-like will arise from the ashes the new Detroit Southern. The preliminaries of the sale, the purchase of the Detroit and Lima Northern property by Listman & Co. of New York, has all been told by the Times-Democrat, but now comes the result of the transfer and naturally it is to be expected that a number of changes will be made to perfect the official status of the consolidation lines.

When the town clock tolled the hour of twelve last night the Lima Northern and Ohio Southern roads were turned over to the Detroit Southern Railroad Company, of which Samuel Hunt is now the recognized president. The latter is now in Springfield where the Ohio Southern headquarters have for a long time been established, and from that point he will dictate the policy of the road, at least until such time as he may be called upon to remove his offices possibly to Detroit.

It has already been announced that the headquarters of the executive officers would be in the Michigan city, and now that the operating department of the new road is definitely located at Springfield, the best that Lima can get out of it under the present conditions is a division point which will bring the city into some prominence as well as to enable a number of the employees to keep up their residence here.

A bulletin has been issued by the Detroit Southern, and is posted in Lima today, announcing that F. E. Dewey has been appointed General Superintendent, with headquarters at Springfield; Frank Ferris, general passenger and freight agent; H. A. Fidler, district passenger and freight agent; T. D. Rhodes, treasurer.

General Superintendent C. D. McKelvey, of the Ohio Southern severed his connection with the road today and turned over all of the business to President Hunt who will take charge in the interest of the first mortgage bond holders.

Mr. Dewey, the new general superintendent and Passenger Agent Fidler will have their offices in Springfield and the other officials will be permanently located in Detroit.

The division from Lima to Detroit is to be known as the northern division and the division from Lima to Cornelia as the southern division. All changes on the new road went into effect at twelve o'clock last night.

T. D. Rhodes, who has been Assistant General Passenger Agent, and W. D. Gray, who has been Auditor of the Cincinnati, Portsmouth and Virginia, quit the service of that company yesterday and left last evening for Detroit, where they will today enter the service of the Detroit Southern, with headquarters at Detroit.

Notes.

Brakeman Frank Reis, of the C. & E., who had his right leg broken while loading machinery at Kingsland, Ind., about ten days ago, is still confined to his home on the south side, and is improving very slowly.

D. & L. N. private car "Ottawa" was turned from the repair shops in Tecumseh yesterday, and the name of the car has been changed to Detroit Southern car No. 109.

Conductor Tibbitt, of the Detroit Southern, is laying off, and conductor T. J. Watt is on his run.

High School Building Proposition Now Ready

To Be Authorized or Rejected by the Votes of the Citizens—Where the Various Voting Places will be.

Monday the citizens of Lima will decide by the ballot whether or not the city shall issue bonds for the purpose of spending \$75,000 for the erection of a new high school building. The election will be held in the same manner as a regular election. The voting places will be opened in every regular voting precinct in the city at 5:30 o'clock Monday morning and will remain open until 5:30 o'clock in the evening. The booths for the voting places were distributed by street commissioner Long's force of men today and everything is now in readiness for the proposition to be finally submitted to the voters of the city. No one questions the necessity of the proposed new building but inasmuch as the board of education refused to decide in advance where the new building would be located if built, many predict the defeat of the proposition.

The voting places selected in the various precincts are as follows:

First ward, A—North side fire department building.

First ward, B—James Foley's shoe store, north Main street.

Second ward—Wayne hotel building, Wayne street and Central avenue.

Third ward, A—Milt Pangle's livery barn.

Third ward, B—Pugh's building, east of High street bridge.

Fourth ward, A—South side fire department building.

Fourth, B—Morris's shoe shop, 909 south Main street.

Fourth, C—Dwelling, 335 south Pine street.

Fifth ward—Banks' barber shop.

Sixth ward, A—Central fire department.

Sixth ward, B—Dwelling, 707 west Spring street.

Seventh ward, A—Court House.

Seventh ward, B—Kreite & Phillips' grocery.

BANQUET

Given by the Juniors to the Seniors

Of Lima College was Held Last Night.

The Event was Celebrated at the Home of Mrs. George Taylor on West Wayne Street.

The annual junior banquet of Lima College in honor of the seniors, held at the home of Mrs. George Taylor, 701 west Wayne street, last night, was one of the best that naughty one and naughty two ever had together. The juniors in a body received the seniors and faculty, and escorted them through the artistically decorated

Class flags, evergreens, and flowers added their charm to the festoons of '01 and '02's colors, which lavishly draped the rooms. An undertone of class spirit was discernable by the conspicuous display of the '02's canes and colors yet this friendly rivalry was merged into forgetfulness when the warm hand of friendship was extended, and the passing commencement joys became the predominant theme. The guests were seated around a beautifully decorated table, they were served several appetizing courses. The toasts sparkled with humor and witticisms. Many were the obscure allusions and pronounced stories of college days, at times making some of the fair ones bluish in confusion. But time glided on and rapidly tolled out the departing night, as the evening of eventful memories linked itself to the past. The words of farewell came and the seniors and juniors felt how soon their classes would be a thing of history, but all felt that this closing social function would contain in after years some of the sweetest memories.

Brilliant Reception Held at the Home of Mrs. Frank E. Harman.

Another Charming Event Held at the Home of Mrs. F. F. Leland. Mr. and Mrs. Wm. White Entertain Friends.

The N. M. W. euchre club was pleasantly entertained at their last meeting for this season, on Tuesday afternoon at the home of Mrs. P. E. Goldea, of Jameson avenue. The first prize was won by Mrs. O. Sullivan and the second by Mrs. G. M. Millerns. The club guests were Mrs. White, of Pittsburg, and Mrs. H. Prophet. The annual election of officers made Mrs. O. Sullivan president and Mrs. P. E. Golden secretary. A dainty five o'clock tea concluded the happy meeting.

Yesterday was a day especially favorable for receptions and there was a crush of callers throughout the afternoon at the pleasant home of Mrs. Frank Harman, of west High street, where she and Mrs. Harry Moore received in honor of the following ladies from Sidney: Mrs. L. M. Studevant, Mrs. R. V. Jones, Mrs. F. M. McCashin, Mrs. W. O. Amann, Mrs. W. R. Wyman, Mrs. T. R. Hazzard, Mrs. W. F. Charters, Mrs. B. M. Donaldson and Mrs. Dickens. In the pleasant duties of presenting the guests Mrs. Frank M. Bell, Mrs. R. L. Bates, Mrs. L. E. Stamets, Mrs. Charles Price, Mrs. O. F. Ramseyer and Miss Grace Bryan were valuable aids. The prettily furnished rooms were most tastefully decorated, charming results being obtained by using choice roses of various hues, from deep meteor roses in the reception room and American Beauties in the dining room, to delicate pink roses in the parlor and library, where a bowl of sparkling punch was served by Misses Nell Price and Helen Moore. In the dining room the loaves, cakes and coffee were served by the following help of maids in dainty summer bellevies: Miss Bess Moore, Miss Pearl Grafton, Miss Lenore Vail, Miss Irene McCoy and Miss Martha Agreter.

Another charming reception was in turn visited by numerous callers yesterday afternoon, when Mrs. Frank F. Leland, of Washington street, opened her home to the St. Marys chapter of Christ church and they in turn invited a merry company of friends. The spacious rooms were pleasantly filled and sweet music made an accompaniment to the chatter of the callers. In the cozy dining room, strawberry ice was served with dainty cakes. Yellow was the color, and choice fragrant flags forming a center piece for the pretty table decoration.

Next Wednesday evening is the time announced for the Purtscher-Cory wedding, which will be celebrated at the home of the bride's parents, Mr. and Mrs. C. H. Cory, of west Market street, and will be witnessed by only the immediate relatives of the young couple.

The Bay View club on Wednesday enjoyed a social time at the home of Mrs. J. B. Grosjean, of west Market street, each member wearing something to indicate or represent some kind of a cake. Among the amusing ones were the short cake, The Minnie-haha, the Christmas cake, the ginger cake, the Washington cake, and the lady finger. An interesting geographical contest gave Mrs. D. H. Sullivan a pretty prize, and during the evening all enjoyed this program:

Duet—Pas De Cymbals. . . Chamade Mrs. Asa Cati and Mrs. H. Williamson. Song—Selected. Mrs. E. B. Hathaway. Piano—Cavatita. Raft Mrs. J. M. Boose. Song—Venetian Boat Song. Blumenthal Mrs. Blanche Wheeler.

Dainty refreshments closed the evening.

Miss Anna Bussert, the soprano for the oratorio next week, will arrive in our city on Monday and be the guest of her cousin Miss Lillie Arthur, of north Metcalf street.

Miss John Bower will be the hostess for the Coterie next Tuesday afternoon.

The Lestianiers will hold their annual open evening on Monday, with Mr. and Mrs. R. H. Ebersole, of north Pierce street.

A number of congenial friends descended upon Mrs. Amos Young's home Decoration Day, giving her a delightful surprise.

Wednesday afternoon Mrs. Frank Lewis, of south West street, was the hostess for the Winodanaghs circle.

Mrs. T. A. McLaughlin will be the hostess for the Woman's Home Missionary society of Market street Presbyterian church next Wednesday afternoon. Alaska will be the topic and an interesting program will be given.

The Salutarians gave a gay little hop to their girl friends last evening at Wheeler hall.

Prothero, the noted composer, whose great oratorio, St. Peter, is to be rendered next week will be in the city to hear it given. He is one of the first enthusiasts over Miss Bussert's voice, hearing her several years ago when she sang at the Gomer-Eisteddfod and praising her highly for her good work and sweet voice.

The Epicurean Cooking club gave Miss Lulu Dalzell, of west Wayne street, a jolly surprise party last eve, each member presenting surprise gifts of amusing articles.

Tuesday morning Miss Sabine Carnes, of west Market street, will give a breakfast in compliment to her guest, Miss Maud Brewer, of Colorado Springs. Covers will be laid for twenty young women.

LIMA COLLEGE

Commencement Season Opens Next Week—Recitals.

The sixth annual commencement season at Lima College opens next week with a series of recitals, beginning Monday evening. These events are looked forward to by Lima friends of education with a great deal of interest. In the lives of the young people who take part in these festivities, they mark an important period. The school year ends with examinations next week, and on Wednesday the summer term begins. The exercises for the week are as follows:

Monday evening—Locutionary recitals by Miss Winona Vinson.

Tuesday evening—Elocutionary recitals by Miss Carrie Eckhardt.

Wednesday evening—A joint piano recital by Misses Amelia Raabe and Ethel Eckhardt.

Thursday evening—Elocutionary recital by Miss Elsie Closson.

Saturday evening—A piano recital by junior music pupils and others.

The Baccalaureate sermon to be class will be preached on Sunday afternoon, June 9 at 3 o'clock, by Pres. Long. The public is invited to these exercises.

PRISONER

Attacks an Ottawa Officer With a Dirk.

Deputy Sheriff Miller of Ottawa, who is well known here, was attacked by a prisoner in the jail yesterday according to a dispatch which says:

As Deputy Sheriff Miller was serving supper to the prisoners in the county jail here Isaac Daoust, a prisoner, told him not to enter the corridor. Miller forced the other prisoners into their cells and started to put Daoust into a cell. Just as he stepped inside the corridor Daoust pulled out a knife and struck at Miller who dodged and got out. H. W. Carby, a passerby, was called and he covered the prisoner while Miller disarmed him.

The knife was in the shape of a dick and was made from a common caseknife. How he obtained it is unknown.
